SINGLE-SIDED

**LED CONNECTION**

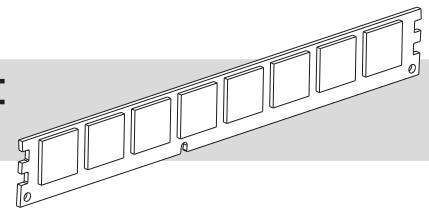

## STANDARD SIZE

13,3 cm x 3 cm

## LOW PROFILE SIZE

13,3 cm x 1,9 cm

**(EN)**

**Assembling the memory stick:** Once mounted, insert the stick into the memory slot on the motherboard and connect the RGB heatsink to an RGB (5 Volt) socket on your motherboard.

**① Power supply extension cord**

**② Memory bar connect**

**(FR)**

**Assemblage de la barrette mémoire :** Une fois monté, insérez la barrette sur le slot mémoire de la carte-mère et connectez le dissipateur RGB à une prise RGB (5 Volts) de votre carte-mère.

**① Alimentation rallonge**

**② Connexion de la carte mémoire**

**(DE)**

**Montage des Speichersticks:** Nach der Montage stecken Sie den Stick in den Speichersteckplatz auf dem Motherboard und verbinden Sie den RGB-Kühlkörper mit einem RGB (5 Volt) Anschluss auf Ihrem Motherboard.

**① Spannungsversorgung  
Verlängerungskabel**

**② Speicherkarte anschließen**

**(IT)**

**Montaggio della chiavetta di memoria:** una volta montata, inserire la chiavetta nello slot di memoria sulla scheda madre e collegare il dissipatore di calore RGB a un socket RGB (5 Volt) sulla scheda madre.

**① Alimentazione prolunga**

**② Scheda di memoria connessa**

**(ES)**

**Montaje del lápiz de memoria:** Una vez montado, introduzca el lápiz en la ranura de memoria de la placa base y conecte el dissipador térmico RGB a un enchufe RGB (5 voltios) de la placa base.

**① Alimentación eléctrica  
Cable de extensión**

**② Tarjeta de memoria conectar**

**S/N:**

**(EN)**

**Warranty:**  
Because your satisfaction is paramount to us, each product manufactured bears a unique identification number! This serial number will soon allow you to register your product online and to take advantage of exclusive offers. You will be asked to provide your receipt for any request made to the customer sales department. Do not return the product to the manufacturer. Please contact our support team, repair or alter the product's accessories, or the power cable. You could electrocute yourself or expose yourself to other hazards. Any signs of attempts to open and/or alter this device, including removing or tearing a sticker, will void the warranty!

**Recycling**

The simplest way to protect our environment is to recycle! Become an eco-responsible and eco-citizen. This selective recycling enables the protection of natural resources and the prevention of the eventual negative consequences on health and the environment resulting from the disposal of electronic waste containing the presence of dangerous materials contained in the batteries or electrical and electronic equipment. To obtain more detailed information on the collection points for batteries and electrical and electronic equipment, contact your local authority/town council, household waste collection service or the shop where you purchased this product.

**CE**

Legal information and compliance: SpiritofGamer declares that this device complies with the essential requirements and other provisions covered by the European directives applicable to the product.

**WEEE**

Environmental protection: WEEE (Waste Electrical and Electronic Equipment): Place this device in a recycling center: Thank you!

**Recycling**

The Möbius strip: You have already seen this logo marked on our packaging, but what does it mean exactly? It means that the product and its packaging are recyclable. The simplest way to protect our environment is to recycle! Become an eco-responsible and eco-citizen with SpiritofGamer.

**RoHS**

The RoHS (Restrictions of Hazardous Substances) regulation is a European ecological directive restricting the use of substances that are harmful to the environment in all electronic products. This directive applies to all electronic and electrical equipment using an electrical or electromagnetic field.
